

Rocky Railroad Station One

Jesus' Power can turn any life around

A roundhouse was a very important place on a railroad. It was where engines would start their journey and be repaired too. In the center in front of the roundhouse is a turntable. It can turn the engine to any track in the roundhouse but it is very important to turn every engine around. You wouldn't want to run backward down miles of track! God's power is a lot like that turntable it can turn any engine around and get it going the right way. Today we learned about Saul and how God turned his whole life around. God can do that for us too.

Around the Roundhouse

Our Memory Verse for today Paul (Saul) would write when he was thinking about how Jesus had turned his life around.

I Timothy 1:15
 This is a faithful saying, and worthy of all acceptance, that Christ Jesus came into the world to save sinners; of whom I am chief.
